O. Reg. 360/86, s. 37.

38.—(1) Where the equalization factor, the residential and farm assessment or the commercial assessment of one or more municipalities within a conservation authority area is altered by the Ontario Municipal Board upon an appeal under the Act establishing the conservation authority, notice of the altered equalization factor, residential and farm assessment or commercial assessment, as the case may be, shall be given forthwith by the clerk of the municipality to the Ministry of Natural Resources.

(2) Upon being satisfied that all appeals of the equalization factor, the residential and farm assessment or the commercial assessment of all municipalities within a conservation authority area have been determined and that all notices under subsection (1) have been received, the Ministry of Natural Resources shall, using the altered equalization factor, residential and farm assessment or commercial assessment, as the case may be,

(a) make the determinations required under sections 33 and 34; and

(b) revise the notice and information to be supplied under sections 35 and 36.

(3) When a conservation authority receives a notice revised by the Ministry of Natural Resources under clause (2) (b), the conservation authority shall amend the apportionment of the total sum required for conservation authority purposes among the municipalities within the conservation authority area on the basis of the adjusted discounted equalized assessments. O. Reg. 360/86, s. 38.

## PART V

### GENERAL

39.—(1) Where any Act requires the Ministry of Revenue or the Ministry of Municipal Affairs to equalize assessment rolls or parts of an assessment roll that relate to two or more defined areas within a supporting municipality, the Ministry of Municipal Affairs shall, in equalizing each assessment roll or each part of the assessment roll, as the case may be, for purposes of municipal taxation in 1986, use the same equalization factor as was used to equalize such assessment roll or such part of the assessment roll for purposes of municipal taxation in 1979.

(2) Subsection (1) does not apply to a supporting municipality where there has been a different assessment generally of real property within that supporting municipality under section 63 of the *Assessment Act*. O. Reg. 360/86, s. 39.

40.—(1) Where the Ministry of Municipal Affairs, Ministry of Revenue or Ministry of Natural Resources, as the case may be, determines in respect of a regional municipality, county, district board or conservation authority that any calculation made under this Regulation was made incorrectly or was based on incorrect information, the Ministry of Municipal Affairs may correct the calculation and may determine the amount that would have been payable to the supporting municipalities within the regional municipality, county, district board area or conservation authority area by the Ministry of Municipal Affairs under this Regulation if the calculation had been correct and the grant amounts payable under Part I, II or III may be adjusted accordingly.

(2) Where a determination is made under subsection (1) in respect of an apportionment and levy of a region-

al municipality, county, district board or conservation authority, that apportionment and levy shall be adjusted in accordance with the corrected calculations and any overpayment or underpayment by a supporting municipality shall be corrected in the same manner as it is corrected following an appeal of a county apportionment by-law or of a discounted equalized assessment being used for apportionment purposes, whichever is applicable. O. Reg. 360/86, s. 40.

41. Where, under this Regulation, an adjustment is made by the Ministry of Municipal Affairs or Ministry of Revenue, as the case may be, in the grant amounts

payable by the Minister of Municipal Affairs to a supporting municipality under Part I, II or III, and where the Ministry of Municipal Affairs determines as a result of the adjustment that an overpayment has been made to the municipality, it shall notify the municipality of the amount of the overpayment and the amount of the overpayment shall be paid forthwith by the municipality to the Ministry of Municipal Affairs. O. Reg. 360/86, s. 41.

42. This Regulation applies to apportionments and levies made on or after the 1st day of January, 1986. O. Reg. 360/86, s. 42.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 370/86.

Exemption—Ministry of the  
Environment—MOE-31.

Made—May 9th, 1986.

Approved—May 9th, 1986.

Filed—June 24th, 1986.

## ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE  
ENVIRONMENT—MOE-31

Having received a request from the Regional Director, West Central Region, Ministry of the Environment, that an undertaking, namely:

The activity of managing the contaminated wastes which may be found both in and around the property of Chemical Waste Management Limited at Site 7, Lot 6, Concession 9, Smithville Industrial Park, Township of West Lincoln, Regional Municipality of Niagara, which management activities will involve the securing and control on a temporary basis of the contaminated wastes, pending the identification and implementation of strategies for the final disposal of those wastes, pursuant to instructions, approvals and orders issued under the *Environmental Protection Act*;

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, West Central Region, Ministry of the Environment, that if the undertaking is subject to the application of the Act, the following injury or damage to the persons and property indicated will occur:

A. The time which would be involved in preparing an Environmental Assessment and seeking approval under the Act would significantly delay the implementation of the undertaking exacerbating the following situations:

- (i) The current situation has resulted in contaminants from the site gaining limited access to surface and groundwater. The groundwater aquifer, located in close proximity to the site, is the source of water supply to the community of Smithville and if prompt action is not taken, there is a possibility that the aquifer will become contaminated, thereby endangering the health of the community.
- (ii) Surface and groundwater flows discharge to Spring Creek and then to Twenty Mile Creek, a major watercourse in the area. Since contaminant inputs, such as PCBs, bio-magnify through the food chain, failure to take action may result in contamination of the aquatic life of Spring Creek and Twenty Mile Creek.
- (iii) Members of the public may be exposed to contaminants as the community uses surrounding areas for recreational or other public activities.

Having weighed such injury or damage against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise

management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The tasks involved in managing the contaminated wastes can be commenced immediately. This will result in minimizing the potential for the injury and damage which are cited above.
- B. The public and the Municipality are anxious that the undertaking be implemented as soon as possible to avoid further potential public exposure to, and offsite migration of, contaminated wastes.
- C. The Ministry of the Environment and the Municipality have reached an agreement, a copy of which is filed with the public records maintained under section 31 of the Act by the Environmental Assessment Branch of the Ministry of the Environment at its main office, with respect to how the clean up and storage of PCB waste shall proceed.
- D. A Liaison Committee with representatives from the local citizens has been established to monitor progress made in the cleaning up of the site and eventual disposal of the contaminated wastes.
- E. The Regional Director, West Central Region, under Ontario Regulation 11/82 will ensure that instructions, approvals and orders are issued which will result in the contaminated wastes being handled in a safe manner with their ultimate disposal being subject to the provisions of Part V of the *Environmental Protection Act*.

This exemption is subject to the following terms and conditions:

1. No wastes other than contaminated soil or other materials from the clean up operation being carried out under this Order shall be brought to the site.
2. This undertaking involves the management of wastes, including cleaning up the site and immediately surrounding area, and the temporary storage in existing or new structures of any waste that cannot be legally destroyed on the property or stored or destroyed at any other location and its removal to other certified waste disposal sites when they become available and, the transfer of the property to the Corporation of the Township of West Lincoln once all waste has been disposed of.

3. The principal activities associated with the undertaking include the following:

- (a) The Province acquiring custody of the property formerly used by Chemical Waste Management Limited at the Smithville site and any necessary adjacent property;
- (b) Consolidation of the wastes, including: contaminated soils, contaminated equipment and materials associated with former operations at the site, and contaminated equipment and materials associated with clean up activities at the site;
- (c) Construction of environmentally controlled temporary storage facilities;
- (d) The removal of any wastes, other than PCB wastes, and of any decontaminated wastes from the site; and
- (e) Relocating and maintaining the contaminated wastes, in the temporary storage facilities, pending the identification, approval and implementation of a strategy for final disposal of those wastes.

4. This Order does not apply to:

- (a) The destruction or permanent disposal of PCB waste;
- (b) The storage of liquid PCB wastes on the site after July 31, 1988; and
- (c) The storage of solid PCB wastes on the site after July 31, 1991.

5. The Liaison Committee referred to in Reason D and the Municipal Council shall be consulted and kept advised with respect to the details of the undertaking as they are developed and progress is made in their implementation.

6. The undertaking will be monitored to ensure that the consolidation, relocation and temporary storage of contaminated wastes do not result in injury or damage to persons and property.

7. A written report shall be prepared on the undertaking and updated annually over the period in which the contaminated wastes are maintained. The report shall describe the activities and the results of the ongoing monitoring program and how the terms and conditions of this Order are being complied with. The report shall be submitted by the Regional Director, West Central Region of

the Ministry of the Environment to the public record. O. Reg. 370/86.

- A. The Crown will be interfered with by the undue delay and expense required to prepare an environmental assessment for an undertaking which will have insignificant environmental effects.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reason:

- A. The proposed undertaking will have insignificant adverse effects on the environment.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

Electric Commission, in Lot 7, Concession 7, in the Town of Markham, to transform electrical current from 230 kV to 27.6/16.0 kV,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Markham Hydro-Electric Commission that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- B. The proponent and its customers will be damaged and interfered with by being required to prepare an environmental assessment for an undertaking which will have only minimal adverse effect on the environment.

REGIONAL MUNICIPALITY OF  
SUDBURY ACT

O. Reg. 376/86.  
Equalization of Assessments made  
under Section 74 of The Regional  
Municipality of Sudbury Act.  
Made—June 25th, 1986.  
Filed—June 26th, 1986.

REGULATION MADE UNDER THE  
REGIONAL MUNICIPALITY OF SUDBURY  
ACT

EQUALIZATION OF ASSESSMENTS MADE  
UNDER SECTION 74 OF THE REGIONAL  
MUNICIPALITY OF SUDBURY ACT

1. The equalization of assessment made under the Act in each prescribed class of real property necessary

to provide, for the Regional Area, assessments of real property that, in accordance with section 74 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school board taxes levied for the year 1985 against the total assessment of real property in each class of real property prescribed in this Regulation is of the total municipal and school taxes levied for the year 1985 in the Regional Area shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1985 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the factors hereafter in this Regulation prescribed for that class of real property in the Regional Area, the municipal and school taxes that would have been so levied for the year 1985 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the Regional Area for the year 1985 against the total assessment for that prescribed class of real property in the Regional Area.
2. All real property within a prescribed class of real property in the Regional Area shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1980, as that market value is determined by the Assessment Commissioner in whose Assessment Region the Regional Area is located.
3. The total assessment, including assessments made under section 32 or 33 of the *Assessment Act*, of the real property in the Regional Area shall not be substantially increased or decreased.
4. Equitability of assessment of real property within each prescribed class of real property in the Regional Area shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the Regional Area, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of the prescribed class of real property by reason of assessments under section 32 or 33 of the *Assessment Act*. O. Reg. 376/86, s. 1.

2. This Regulation applies to the Regional Area and to the assessment to be shown on the assessment roll to

be returned in the Regional Area for the year 1985 for taxation in the year 1986 and for every assessment made in the Regional Area for taxation in each subsequent year until a new reassessment of all property within the Regional Area is made under subsection 74 (5) or (6) of the Act. O. Reg. 376/86, s. 2.

3. For the purposes of this Regulation, the real property situate in the Regional Area shall be divided into the prescribed classes of real property that are designated in this Regulation. O. Reg. 376/86, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the Regional Area shall be that shown in the Schedule to this Regulation opposite the number of that prescribed class. O. Reg. 376/86, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 385/86.

Exemption—Ministry of Government  
Services—MGS-63.

Made—June 20th, 1986.

Approved—June 20th, 1986.

Filed—June 27th, 1986.

ORDER MADE UNDER THE  
ENVIRONMENTAL ASSESSMENT ACTEXEMPTION—MINISTRY OF GOVERNMENT  
SERVICES—MGS-63

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activity of constructing a new Courthouse and Registry Office and the demolition of both the original courthouse structure (either totally or in part) and the Juvenile and Family Court structure at a site legally referred to as lots 32, 33, 34, 35, 36, 98, 100, 101, 102, 103 and part of 104, Registered Plan Number 13, City of North Bay, District of Nipissing,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of the Attorney General and the Ministry of Consumer and Commercial Relations will be interfered with because they require the undertaking to overcome existing inadequate facilities which severely hamper effective and efficient program delivery;
- B. The public will be interfered with and possibly damaged in that the level of service available and the access to that service is restricted by the existing inadequate accommodations; and

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Minister of Government Services has assured me that the undertaking will not have any significant adverse effect on the natural environment, based in part, upon the fact that adequate municipal services exist or

can be made available at the site to accommodate the development.

- B. The original courthouse structure will be retained until such time as the new building is completed. During the construction period associated with the new courthouse and registry office complex, an investigation will be conducted to formulate a plan for the potential uses for the old courthouse structure or the preservation of a commemorative portion thereof, involving the Ministry of Citizenship and Culture and interested parties. In any event, the 1909 portion of the structure will be demolished upon completion of construction of the new building to complete landscaping of the site and emergency egress from the new structure. The 1888/1896 portion would also be demolished at the conclusion of construction if no appropriate user is found who will take over responsibility for the upgrade and maintenance of the building.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this Order, is being carried out as or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this Order.
2. Where any activity which is the subject of this Order, is being carried out as or is part of, another undertaking which is the subject of an exemption Order under the Act, the activity exempt under this Order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this Order.
3. This exemption shall not apply unless construction has commenced by December 31, 1987.
4. The original courthouse shall be maintained in its present condition until construction of the new building has been completed. During the construction period, an investigation will be conducted on the future use of the old courthouse as referred to in Reason "B" above. Any resulting plan, and the method by which it is carried out, shall be approved by the Ministry of Citizenship and Culture. O. Reg. 385/86.

UNDER AND BY VIRTUE OF an Execution issued out of the Supreme Court of Ontario, to me directed, against the lands and tenements of Patsy Thompson, Defendant at the suit of the Royal Bank of Canada, Plaintiff, I have seized and taken in execution all the right, title, interest and equity of redemption of Patsy Thompson in and to:

The following listed and described property.

## Environmental Assessment Act

### SECTION 14

#### NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the Guelph Area Supply Study 230 kV Transmission Line

Proponent: Ontario Hydro

EA File No. 1-79-0014-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on October 9, 1985. I have received one notice requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking but for the reason set out in paragraph 4 at the end hereof I consider that a hearing is unnecessary.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted and the submissions received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as provided by the subsequent conditions, the proponent shall comply with all of the provisions of the Environmental Assessment as amended which are herein incorporated by reference.
2. Prior to construction, Ontario Hydro shall discuss construction and mitigation details of the crossing of Hopewell and Cox Creeks with the District Officer in the Cambridge office of the Ministry of the Environment. Consultation shall deal with the specific construction and mitigation details proposed for the crossings of Hopewell and Cox Creeks, including: the exact location of the Hopewell and Cox Creek crossings; the dimensions and streamflow characteristics where the crossings will occur; the time, duration and procedures of the cross-

ings; and mitigation and restoration measures associated with the crossings. These activities will be carried out as agreed to between Ontario Hydro and MOE.

3. Prior to construction in the area where PCB's are present, shown as Site 1A and Site 1 adjacent to the Canadian General Electric Plant on Figure 14 in the Environmental Assessment, Ontario Hydro shall discuss the details of the construction and monitoring, mitigation and restoration measures to be undertaken in that area with the Ministry of the Environment District Officer in the Cambridge District Office. Ontario Hydro shall carry out construction in that area during frozen ground conditions and only at times when the Ministry of the Environment's District Office in Cambridge has been notified that such construction will be carried on. All PCB contaminated excavated soil shall be handled as PCB waste.

#### REASONS:

My reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the Review, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.

3. On the basis of the proponent's Environmental Assessment, the Review and the conditions of approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

4. I received one request for a hearing after giving the Notice of Acceptance dated September 12, 1985. The Caledon Gliding Club requested a hearing as it was concerned about the degradation of flight safety resulting from the transmission line. Transport Canada, the body with primary jurisdiction over the issue, has indicated that in its opinion, flight safety would not be degraded by the construction of the undertaking. Transport Canada has stated that "... the obstacle in the form of a power line of the height and distance from the strip as described by you would not preclude this aerodrome from meeting licensing standards". Transport Canada has further indicated that the licensing standards were designed to consider glider aircraft and that the Caledon Gliding Club has the option of changing their flight pattern if it is not satisfied.

Dated at Toronto this 25th day of June, 1986.

MINISTER OF THE  
ENVIRONMENT,  
135 St. Clair Avenue West,  
15th Floor,  
Toronto, Ontario M4V 1P5.
